Re: NOTICE OF CHANGE—FUEL DIVERSION REGISTRATION AND REPORTING

The Motor Fuel Tax Act (Public Act 403 of 2000, as amended) requires that a driver of a fuel transportation vehicle or operator of a train pulling a rail car notify the department and obtain a diversion verification number before diverting fuel to or from Michigan.

The Michigan Department of Treasury is a member of the National Fuel Diversion Registry. We were recently notified that the phone-in National Fuel Diversion Registry diversion registration system would be replaced by the TRAC III web-based fuel diversion registration system as of July 1, 2006.

In order to register to report future diversions of Michigan tax-paid fuel to another State or Canada or fuel diverted to Michigan you go to [www.trac3.net](http://www.trac3.net), click on "Registration", enter requested company data (for the initial registration only) and follow the simple steps. A drop down box for Federal Terminal Code Numbers (TCN's) is provided to assist in diversion registration. Diversion registration information can easily be verified by selecting the "Confirm" option. The TRAC III system maintains basic company name and address information and diversion information in a secure manner to protect your personal information.

Recognizing that you may have limited Internet access during the weekends or after hours, effective July 1, 2006 the State of Michigan, Department of Treasury will require that a diversion number be obtained by the next business day if a diversion occurs. A diversion number may be obtained by contacting our office at the phone number below during regular business hours if you do not have Internet access.

Please contact the Motor Fuel Division at (517) 636-4600 if you have any questions.

Sincerely,

Stephen Hilker, Director  
Customer Service Bureau
